The Class of 2017

Savage Seniors

Class of 2017

Wow. Already? We are seniors? This is too overwhelming! I cannot believe we have made it to this point in our lives. Time really does fly by. I remember all of us being freshmen yesterday. I remember the four amazing years I have had at Hancock High School with the class of 2017. I know when I go off to college, I will be wondering what the rest of my senior class is doing. This year's seniors show honor, gratitude, and courage. We have come together and grown as a family these past years. Take the time to reminisce on your memories from elementary to high school. The future has so much waiting for you. Take the time to look into what you want to do, what your interest are, and what you have fun doing. You never know, there could a path for you to take. Last but not least, have fun. Have so much fun that you have a great answer for a terrible college ice-breaker they offer. So we walk these hallways one last time memorizing everything. The senior section in the gym, the classrooms, the teachers, your friends, your freshmen hand prints on the walls. Then we realize this is the last time we will be a Hawk and we will begin a new chapter in our lives. I feel so honored to be president to a class full of such uniqueness and ambition. I wish all of you the best of your college experience and your future success. I will see you at the reunion!

Jazzy Juniors

Oh when the juniors come marching in! Oh when the juniors come marching in! Oh how I love to be class 2018 when the juniors come marching in. The Flawless Freshman, the Show-Stopping Sophomores, and now the Jazzy Juniors have come a long way throughout these last 3 years; from getting 4th freshman year to getting first Junior year in homecoming week and also having the best attendance percentages in the school. We have proved and hopefully will continue to prove that we can strive to be the best if we exhibit hawk pride and put in determination, hard work, and team work. Our journey in high school is coming to a close end leaving us only a year to truly "Leave Our Legacy" on Hancock High. During this last year we are going to need each other more than ever to help guide us to success and achieve our many goals. Exceed your expectations as well as others; prove that the Class of 2018 may only have 1 year, but we're going to make the most out of it. As Rachel Platten says "I might only have one match, but I can make an explosion."

As we look back on this year, we remember all the accomplishments we've made together. The class of 2019 has grown closer, especially during the intense race for second place with the seniors for homecoming week. Even though we got third place, we all united and tried our best. Another accomplishment we've achieved together was winning the spirit stick at one of the pep rallies. It may not seem like such a big deal, but it is the first time our class has won it! They time flies when you are having fun, and I believe this 100%. Our sophomore year is flying by, and we have had nothing but fun so far. This is a year I will never forget with a class that is nothing less than unforgettable.

Five Star Freshmen The Class of 2020

President--Cailyn Gerald, Vice President--Hannah Davis,
Secretary--Hannah Lee, Treasurer--Josephina Orsos

Dear Class of 2020,

Freshmen, we have made it through our first year of high school. We made many friends, learned many things, and created many memories. We walked in the school for our first time this year anxious and a little afraid, and we are walking out with a new perspective and a better understanding of what life has to offer. Class of 2020 did an amazing job this year. We grew as a team, and each one of us grew as individuals. Next year, we are going to take the advice that our older peers gave us and the new knowledge we gained and have an even better year. We learned that it doesn't matter if you hang out with different groups of friends; when we put our differences aside we all came together as a whole and created a memorable year. This year was definitely one for the books!

Sincerely,
Cailynn Gerald and Hannah Davis

Christian Blue Jordan

To Our Guardian Angel,

As we say our goodbyes to Hancock High School, we want to thank you for watching over us these past four years. Even when things were going rough in school you always seemed to have a smile on your face. Your positive attitude and outlook on life is something that will always inspire us. As we continue to grow and aspire to be successful individuals, we continue to keep our dearest memories close together. Your humor, kindness, and ability to always see the good in everyone will always be qualities we strive to have. We are so blessed to live each day knowing you are cheering us on for these new journey in our lives. We love you and miss you. We will continue to make you proud Christian Blue Jordan.

Sincerely,
The Class of 2017

"If love alone could've kept you here, you would've lived forever."

Jessie Beddoe

Dear Jessie,

I can't believe your baby girl is all grown-up and graduating High School. It seems like such a short time ago that we brought you home as a newborn from the hospital. My how the time has flown! You have been such a willing presence in our home these many years, and it is wonderful to have a small touch of someone that I think of the times when you leave home and go off on your own big life adventure.

The one real worry I had along as you grew up and went through your many phases, mostly good and some not so good, but never anything that was cause for serious concern. I always knew you were much better than I was growing up!

There have been many great memories of you that I will always keep in my heart. Things like you learning to ride a bike, pulling you around on a swing set at Halloween, riding through the "bat man" square, having your name put over in the little park, riding roller coasters and how times, teaching you how to drive, all of the vacations we've taken, and so many more. It's been so good to my mind and seeing you and your sister Sophia is what has been my life purpose.

Your accomplishments in life have been numerous and they give me reason to admire and have pride in you. I have to admit I was a bit worried way back in kindergarten and grade school when you would sometimes come home with a "yellow" tag from talking too much, mostly because you took after me in that aspect. But once you grew out of that and were never a problem. In school you have mastered everything that has been put in front of you and have managed to find your higher education through your hard work. You have met and exceeded all of my expectations and I fully expect you will continue to do so as you move on to your future challenges.

I guess really all I have to say is thanks for the memories, thanks for being a good kid and remembering that I am always here to support you in any way I can. Don't forget to call home and thank!

Love, Mom

Love,

Surreal. That is the perfect word for how it feels to know that my little girl is graduating from high school. It feels like just yesterday that we were watching TV in our tiny room in the sun room. Just yesterday, we were building forts in the woods. Just yesterday, I was teaching you how to kick a soccer ball in the front yard. Just yesterday, we were watching Sports in the back seat of the car on a road trip. I am so proud of the smart, very beautiful young woman that you have become and where you are now. You are no longer the little girl that used to steal my silver bunnies, hide them, and then pretend like they were nothing to do with it. You are no longer the "silly" girl that used to watch me play computer games for hours on end. However, you have become an amazing person with a big heart, strong will, and incredible mind, and I am so proud I could be a part of the experience that shaped you into that person. So yes, it is surreal to know that you are graduating from high school and beginning a new chapter of life and even more surreal to know that our past is growing so far away. However, I cannot wait to see not only what the future holds for you in all your endeavors, but also to see all the new wonderful memories we will make as sisters, college students, and hopefully, someday, friends.

Love your
Sister

ASHLEE DELBUNO

Well that is it, the top of the first major mountain you have ever climbed. We waited patiently to catch you if you ever fell, but you didn't. It has been an honor and privilege to watch you take on challenge after challenge and do it all in stride. So proud of you.

Be humble enough to realize you still have a lot to learn.
Be ambitious enough to know you can be anything you want to be.

Be easy enough on yourself to enjoy, to laugh, and to have fun.

Be confident enough to see that who you are inside is more important than how you look outside.

Be wise enough to choose your friends carefully.

Be absolutely sure that wherever you go, whatever you do,

YOU ARE LOVED.
